EXECUTIVE SUMMARY

(i) DATA HIGHLIGHTS: 1998 TO 2006

Manitoba merchandise exports to the rest of the world were $11,332 million in 2006, up 40.4% from the 1998 level of $8,069 million. Canada's total merchandise exports during the same time frame increased 38.2%, from $297,509 million in 1998 to $411,282 million in 2006. Between 2005 and 2006, Manitoba's foreign exports increased by 17.1% while Canada's foreign exports increased by 0.7%.

Manitoba's merchandise imports from other countries grew from $8,642 million in 1998 to $12,289 million in 2006, an increase of 42.2%. Between 2005 and 20065, Manitoba's imports increased by 5.1%.

Manitoba's agricultural exports grew from $1,775 million in 1998 to $2,064 million in 2006, an increase of 16.3%. Between 2005 and 2006, Manitoba's agricultural exports grew by $345 million or 20.1%: there were no exports of live bovine animals during 2004 because of the BSE (mad cow disease) closing the United States border in May, 2003. Manitoba's non-agricultural exports rose from $6,293 million in 1998 to $9,268 million in 2006, an increase of 47.3%. Agricultural exports as a percent share of total Manitoba exports changed from 22.0% in 1998 to 18.2% in 2006 while non-agricultural exports as a percent of total exports rose from 78.0% in 1998 to 81.8% in 2006.

Manitoba's major trading partner is the United States. Exports to the United States grew from $6,068 million in 1998 to $8,586 million in 2006, an increase of 41.5%. Exports to non-U.S.A. countries during that same time period went from $2,000 million to $2,746 million, an increase of 37.3%. Consequently, the United States' percent share of Manitoba exports has risen from 75.2% in 1998 to 75.8% in 2006. Only two of the last nine years have produced double digit annual growth in export trade with the United States, averaging a compounded 5.3 percent per year. Exports to the U.S.A. for 2006 were 14.9% higher than during 2005, while imports from the U.S.A. were up 5.9% during that same time frame.

While the overall growth of Manitoba exports was 40.4% between 1998 and 2006, the export growth to NAFTA countries was 41.6% and accounted for 77.6% of all foreign merchandise exports in 2006. Manitoba exports to Pacific Rim countries increased by 29.9% between 1998 and 2006 and accounted for 12.9% of total exports in 2006. Exports to NAFTA countries increased by 15.0% from 2005 to 2006, while exports to Pacific Rim countries increased by 22.9% during this same time period. Exports to other areas (E.U., Middle East, Africa, Latin America and other areas) increased by 27.8% between 2005 and 2006.

Manitoba manufacturing exports grew from $5,405 million in 1998 to $7,410 million in 2006, an increase of 37.1%. Manufacturing exports to the U.S.A. rose from $4,491 million to $5,852 million during that time frame, a 30.3% increase. Manufacturing exports to the U.S.A. accounted for 79.0% of Manitoba's total manufacturing exports in 2006. Manufacturing exports accounted for 65.4% of total exports during 2006, while manufacturing exports to the U.S.A. accounted for 68.2% of all exports to the U.S.A.. Manufacturing exports to all countries increased by 15.5% between 2005 and 2006 while manufacturing exports to the United States grew by 12.8%.

For every 100 dollars of merchandise imported into Manitoba in 1998, 93.4 dollars were exported: 2006 saw 92.2 dollars exported for every 100 dollars imported. Similarly, the export to import merchandise ratio for trade with the U.S.A. went from 81.5 in 1998 to 84.7 in 2006. The increase in the value of the Canadian dollar relative to the U.S. dollar means that imports from the U.S.A. were more expensive during 2006.

The following twelve charts highlight Manitoba's trade performance over the last nine years. Generally, growth rates over the last 1, 3, 5 and 8 years are provided.

INTRODUCTION:

This report has been prepared by the Manitoba Bureau of Statistics (MBS) as part of its economic statistics program. Its purpose is to provide information for Manitoba on the importance and impact of international merchandise trade.

This publication provides international merchandise trade data by country, commodity and industry. The information is from Statistics Canada's International Trade Division. Merchandise trade data presented covers the 1998 to 2006 calendar years.

Users should be aware that the export data is on a "province of origin" basis, while the import data is on a "province of clearance" basis. Therefore, a significant quantity of imports from other countries are not counted as they are cleared through custom ports in other provinces and then shipped to Manitoba (MBS would count these as interprovincial imports). This implies that the trade balances calculated for individual countries could overstate Manitoba's actual position.

All commodity data presented in this report are based on the Harmonized System (HS) which was adopted for both exports and imports in 1988.

The Manitoba Bureau of Statistics has available additional detailed information which can be supplied to interested users on a cost recovery basis. Export/Import information that can be provided includes:

i) individual commodities for specific countries
ii) individual commodities by country (volume and dollar value) at the 4, 6, 8, or 10 digit HS level
iii) commodities by country for specific industries or sectors.

Trade information is also available in **MBS Trade**, an information system that provides the top 20 commodity exports or imports for an individual country and 25 commodities for each US state or trading area. Access to this system is available on a subscription basis.

For further information regarding MBS Trade or custom requests, please contact Marcel Chartier at (204) 945-2991.

NOTE TO USERS:

This publication contains the revised trade information for the 2003 to 2006 period. These are the most current numbers available from International Trade Division. The 2004 to 2006 information is subject to further revision in February, 2008.

The presented export information is as released by Statistics Canada. MBS has made no revisions to Statistics Canada's cereal grains, oil seeds or crude petroleum export values for Manitoba. MBS adjusts the value of exports for these commodities in its Manitoba Economic Accounts. These adjustments are undertaken to better reflect the value of the foreign export of these commodities to the provincial economy.

In this publication, the MBS has made adjustments to the import statistics released by Statistics Canada. Firstly, adjustments have been made on the 1998, 2001, 2002 and 2003 aircraft imports from France to better reflect Manitoba's true share of these imports, which are being used throughout Canada. The second adjustment is that the MBS import value excludes commodities classified as "Imports from Canada".

Due to valuation issues, MBS has also made revisions of Coin (HS 7118) exports to the United States and Articles of Copper, nes (HS 7419) imports from the United States for the 2000 calendar year. The $898.9 million reduction in Coin exports translates to a 9.4% reduction in total exports for 2000. Similarly, the $1,340.3 million reduction in Articles of Copper, nes imports translates to a 12.5% reduction in total imports for 2000.
